REANNOUNCEMENT OF SAFETY RECALL

Special FREE furnace inspection and upgrade program for select Coleman®, Coleman® Evcon and Red T gas furnaces

This is a reannouncement of a previously advised safety recall. Your home may have one of the select gas furnaces manufactured between 1995 and 2000. Due to premature heat exchanger failures on these furnaces, which can lead to significant property damage, personal injury or death, we are offering a FREE inspection and upgrade of the following models:

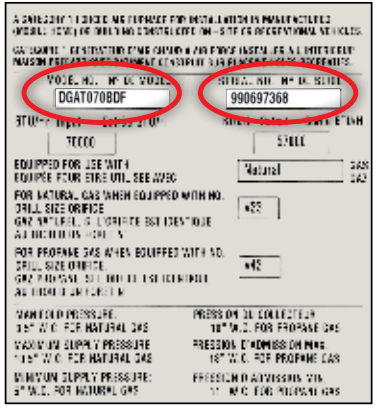
DGAM075BDD	**DGAT070BDD**	**DGAT075BDD**	**DLAS075BDD**
DGAM075BDE	**DGAT070BDE**	**DGAT075BDE**	**DLAS075BDE**
DGAM075BDF	**DGAT070BDF**	**DGAT075BDF**	**DLAS075BDF**

To arrange for your FREE furnace inspection and upgrade:

1. Verify you have one of the select models involved by looking at the rating label on your furnace. First, carefully remove the front access panel; the rating label is located on the inside front panel of the furnace and looks like the label shown to the right.

2. If your furnace model number on the rating label matches one of the models listed above, your furnace may be eligible to be inspected and upgraded at no cost to you. If your furnace does not have one of the models listed, your furnace is NOT INVOLVED and no further action is required.

3. If your furnace model IS INVOLVED, visit our website at **www.dgatprogram.com** or call **1-888-665-4640**, please have your model and serial number available. Our call center personnel will verify your furnace is eligible, then will align you with a local authorized Coleman Service Center and arrange for your free inspection and upgrade.



ACT TODAY: Contact your local Authorized Coleman® Service Center and arrange your FREE inspection and upgrade.
